Report on Single Audit of the Metropolitan Transportation Authority, New York, NY
Self-Initiated

Federal Railroad Administration | SA2018031 | March 13, 2018

What We Looked At

As part of our single audit program oversight responsibilities, we queried the Federal Audit Clearinghouse's Image Management System to identify single audit reports containing findings that affect directly awarded Department of Transportation (DOT) programs. We reviewed the Metropolitan Transportation Authority's single audit report for the period ending December 31, 2016, which was prepared by an independent auditor.

What We Found

We found that the single audit report contained a significant finding related to non-compliance with the Office of Management and Budget's (OMB) requirements that needs prompt action from the Federal Railroad Administration's (FRA) management.

Recommendations

We recommend FRA ensures that the Authority complies with OMB's requirements.
