Report on Single Audit of the New Mexico Department of Transportation, Santa Fe, NM
Self-Initiated

National Highway Traffic Safety Administration and Federal Highway Administration |
SA2018044 | April 30, 2018

What We Looked At

As part of our single audit program oversight responsibilities, we queried the Federal Audit Clearinghouse's Image Management System to identify single audit reports containing findings that affect directly awarded Department of Transportation (DOT) programs. We reviewed the New Mexico Department of Transportation's (NM DOT) single audit report for the period ending June 30, 2017, which was prepared by an independent auditor.

What We Found

We found that the single audit report contained significant findings related to non-compliance with the Office of Management and Budget's (OMB) requirements that need prompt action from the National Highway Traffic Safety Administration's (NHTSA) and Federal Highway Administration's (FHWA) management.

Recommendations

We recommend NHTSA and FHWA ensure that the NM DOT complies with OMB's requirements.
