Report on a Single Audit of the City of Columbus, Columbus, IN
What We Looked At
We reviewed the City of Columbus’s single audit report for the fiscal year ending December 31, 2017, in order to identify findings that affect directly awarded Department of Transportation programs. An independent auditor prepared the single audit report, dated October 11, 2018.

What We Found
We found that the report contained activities allowed or unallowed; allowable costs/cost principles; and matching, level of effort, earmarking findings that needs prompt action from the Federal Transit Administration’s (FTA) management.

Recommendations
We recommend that FTA ensures that the City complies with the activities allowed or unallowed; allowable costs/cost principles; and matching, level of effort, earmarking requirements. We also recommend that FTA recovers $156,981 from the City, if applicable.

To: Regional Administrator, Federal Transit Administration (FTA), Region 5

The Office of the Inspector General performs oversight of non-Federal auditors’ single audit\(^1\) reports and issues memoranda listing significant findings and recommendations requiring action by the Department of Transportation (DOT). When warranted, we also recommend that agencies recover funds that were inappropriately expended by non-Federal entities. Between 300 and 400 single audits reports are issued annually that include findings related to major programs directly funded by DOT.

We obtained the City of Columbus’s single audit report for the fiscal year ended December 31, 2017 from the Federal Audit Clearinghouse’s Image Management System.\(^2\) An independent auditor performed the audit in accordance with generally accepted Government auditing standards and the Office of Management and Budget’s Uniform Guidance\(^3\) and issued a report\(^4\) dated October 11, 2018. See the table for the independent auditor’s findings and our recommendations.
