### What We Found

We found that the report contained a reporting finding that needs prompt action from the Office of the Secretary's (OST) management.

The Office of the Inspector General performs oversight of non-Federal auditors' single audit<sup>1</sup> reports and issues memoranda listing significant findings and recommendations requiring action by the Department of Transportation (DOT). When warranted, we also recommend that agencies recover funds that were inappropriately expended by non-Federal entities. Between 300 and 400 single audits reports are issued annually that include findings related to major programs directly funded by DOT.
