Report on a Single Audit of the New Mexico Department of Transportation, Santa Fe, NM

Self-Initiated

Federal Highway Administration | SA2019036 | March 26, 2019

What We Looked At

We reviewed the New Mexico Department of Transportation's single audit report for the fiscal year ending June 30, 2018, in order to identify findings that affect directly awarded Department of Transportation programs. An independent auditor prepared the single audit report, dated October 25, 2018.

What We Found

We found that the report contained a subrecipient monitoring finding that needs prompt action from the Federal Highway Administration's (FHWA) management.

Recommendations

We recommend that FHWA ensures that the Department complies with the subrecipient monitoring requirements.

The Office of the Inspector General performs oversight of non-Federal auditors' single audit¹ reports and issues memoranda listing significant findings and recommendations requiring action by the Department of Transportation (DOT). When warranted, we also recommend that agencies recover funds that were inappropriately expended by non-Federal entities. Between 300 and 400 single audits reports are issued annually that include findings related to major programs directly funded by DOT.

We obtained the New Mexico Department of Transportation's single audit report for the fiscal year ended June 30, 2018 from the Federal Audit Clearinghouse's Image Management System.² An independent auditor performed the audit in accordance with generally accepted Government auditing standards and the Office of Management and Budget's Uniform Guidance³ and issued a report⁴
