Report on a Single Audit of the Southern California Regional Rail Authority, Los Angeles, CA

Self-Initiated

Federal Transit Administration | SA2019043 | March 27, 2019

What We Looked At

We reviewed the Southern California Regional Rail Authority's single audit report for the fiscal year ending June 30, 2018, in order to identify findings that affect directly awarded Department of Transportation programs. An independent auditor prepared the single audit report, dated December 31, 2018.

What We Found

We found that the report contained an equipment and real property management finding that needs prompt action from the Federal Transit Administration's (FTA) management.

Recommendations

We recommend that FTA ensures that the Authority complies with the equipment and real property management requirements.

Memorandum

Date: March 27, 2019

Subject: ACTION: Report on a Single Audit of the Southern California Regional Rail Authority, Los Angeles CA | Report No. SA2019043

From: George E. Banks, IV
Program Director

To: Regional Administrator, Federal Transit Administration (FTA), Region 9

The Office of the Inspector General performs oversight of non-Federal auditors' single audit¹ reports and issues memoranda listing significant findings and recommendations requiring action by the Department of Transportation (DOT). When warranted, we also recommend that agencies recover funds that were inappropriately expended by non-Federal entities. Between 300 and 400 single audits reports are issued annually that include findings related to major programs directly funded by DOT.

We obtained the Southern California Regional Rail Authority's single audit report for the fiscal year ended June 30, 2018 from the Federal Audit Clearinghouse's Image Management System.² An independent auditor performed the audit in accordance with generally accepted Government auditing standards and the Office of Management and Budget's Uniform Guidance³ and issued a report⁴ dated December 31, 2018. See the table for the independent auditor's finding and our recommendation.

¹ A single audit, as required by the Single Audit Act of 1984, as amended, helps Government agencies and auditors oversee the expenditure of Federal funds by non-Federal entities.

² The Federal Audit Clearinghouse Image Management System is a public database of completed single audits—<http://harvester.census.gov/facweb/>—maintained by the U.S. Census Bureau on behalf of OMB.

³ Under Title 2 of the Code of Federal Regulations, Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), the auditor is required to render an opinion on the entity's financial statements, identify inappropriate use of Federal funds, and report internal control and compliance deficiencies that affect Federal grant programs.

⁴ Copies of single audit reports are available at the Clearinghouse's website, <https://harvester.census.gov/facweb/>.

Within 30 days of this report, your Agency should identify specific actions planned or taken to resolve⁵ the independent auditor's finding, and provide a target action date for implementation of our recommendation. We will track the recommendation until your Agency provides documentation of final action. We will consider the recommendation closed upon our review and concurrence. All actions should be coordinated through your Agency's Single Audit Liaison. If you have any questions, please email them to singleauditrequest@oig.dot.gov.
