Report on a Single Audit of the Terre Haute Regional Airport Authority, Terre Haute, IN

Self-Initiated

Federal Aviation Administration | SA2019081 | September 18, 2019

What We Looked At

We reviewed the Terre Haute Regional Airport Authority's single audit report for the fiscal year ended December 31, 2017, in order to identify findings that affect directly awarded Department of Transportation programs. An independent auditor prepared the single audit report, dated March 8, 2019.

What We Found

We found that the report contained a special tests and provisions finding, and an allowable costs/cost principles and reporting finding that need prompt action from the Federal Aviation Administration's (FAA) management.

Recommendations

We recommend that FAA ensures that the Authority complies with the special tests and provisions and allowable costs/cost principles and reporting requirements.

The Office of the Inspector General performs oversight of non-Federal auditors' single audit¹ reports and issues memoranda listing significant findings and recommendations requiring action by the Department of Transportation (DOT). When warranted, we also recommend that agencies recover funds that were inappropriately expended by non-Federal entities. Between 300 and 400 single audit reports are issued annually that include findings related to major programs directly funded by DOT.

We obtained the Terre Haute Regional Airport Authority's single audit report for the fiscal year ended December 31, 2017, from the Federal Audit Clearinghouse's Image Management System.² An independent auditor performed the audit in accordance with generally accepted Government auditing standards and the Office of Management and Budget's Uniform Guidance,³ and issued a report⁴
